The Alternative Story

ALTERNATIVE HOME HEALTH CARE was founded in 1996 by George Cann and Carla Albano. The first office was located in Fort Lauderdale and served all of Broward County. In 2006, the Miami location was established to serve Dade County. We further expanded in 2008 to serve our Palm Beach County clients.

Our focus has always been to provide high-quality home health care services. We are committed to providing service to a variety of clients, including those who pay privately for services and those who utilize long term care insurance.

We take pride in our commitment to a variety of community programs, including Community Care for the Elderly and the Alzheimer's Disease Initiative programs. We believe in being involved in all of the communities we serve. Agency managers are involved in numerous not-for-profit boards and committees.

We invest in our employees—they are key to our success. We strive to hire only the best through stringent skills-testing (not required by law) and background screening. All employees who work with us for one year or more are provided company-paid health insurance and a 401(k) savings plan with company match. We utilize "Clockwork" technology to promote on-time reliability and assure accurate tracking of hours worked for automation of our billing and payroll processes. It also allows for efficient communications between our aides in the field and office staff. Most importantly, this system allows for improved customer service in a "real-time" environment.

Alternative Home Health Care has been recognized as an industry leader. In 2003 we were selected for a story which was broadcast nationwide on CNBC. The story, and others like it, can be viewed on our website. Additionally, our agency has been selected to handle special assignments and high-profile cases.
